## 3D TECH

With the 3D Tech technology a variety of ceramic materials can be applied, even in thick layers, in perfect alignment with the underlying graphic design created by extremely high definition digital printing. This revolutionary production process combines a tactile texture with the product's patterning to provide surfaces of stunning sensory value.

La tecnologia 3D Tech consente di applicare differenti materie ceramiche, anche a spessore, in perfetta corrispondenza con la grafica sottostante, realizzata in digitale ad altissima definizione. Un processo produttivo rivoluzionario, che combina la matericità con l'estetica del prodotto, fino ad ottenere superfici dallo straordinario valore sensoriale.

La technologie 3D Tech permet d'appliquer différents matériaux céramiques d'épaisseurs diversifiées, parfaitement alignés avec les graphismes sous-jacents, créés à l'aide de la technologie numérique très haute définition. Il s'agit d'un processus de production révolutionnaire alliant la matérialité et l'esthétique du produit, qui permet d'obtenir des surfaces d'une extraordinaire valeur sensorielle.

Mittels 3D Tech lässt sich unterschiedliches keramisches Material – auch in verschiedenen Stärken – perfekt auf das darunter liegende grafische Muster aufbringen, das mit hochauflösender Digitaltechnik hergestellt wird. Ein revolutionärer Fertigungsprozess, der Materialität und Optik des Produktes perfekt miteinander verbindet und zu Oberflächen mit außerordentlicher Haptik führt.

## P TECH

The P.TECH technology improves slip resistance while maintaining a pleasant 'feel'. P.TECH is the outcome of an innovative production process that involves meticulous raw material selection with special pressing, firing and end-of-line procedures. Although the P.TECH products, rated R10 and R11, achieve the highest friction coefficients, they are easy to clean and thus ideal for wellness projects and outdoors, including public and commercial areas.

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, R10 ed R11, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e outdoor, anche in aree pubbliche o commerciali.

La technologie P.TECH améliore la résistance à la glissance sans se départir d'une agréable sensation au toucher. P.TECH est le résultat d'un processus de production innovant qui associe la sélection des matières premières aux phases de pressage, de cuisson et de façonnage en aval. Bien qu'ils atteignent les coefficients de frottement les plus élevés, les produits P.TECH, R10 et R11 présentent une excellente nettoyabilité et peuvent donc être utilisés aussi bien dans les centres de bien-être qu'à l'extérieur, voire dans les lieux publics et les espaces commerciaux.

P.TECH ist eine Technologie, die die Rutschhemmung verbessert, ohne dass die angenehme Haptik verloren geht. P.TECH ist das Ergebnis eines innovativen Fertigungsprozesses, der alle Phasen von der Auswahl der Rohstoffe über das Pressen und Brennen mit der Endbearbeitung umfasst. Die P.TECH-Produkte R10 und R11 sind trotz der besonders hohen Reibungskoeffizienten leicht zu reinigen. Daher eignen sie sich für Wellness- wie für Outdoor-Projekte, auch in öffentlichen oder gewerblichen Bereichen.

# FALAISE

Falaise re-interprets slate with a fresh take that goes beyond simple digital reproduction. Characterised by both warm and cool neutral shades, the stone features tone-on-tone colour transitions that are softer and more delicate than the natural material from which it is inspired. Rich in detail and with a striking three-dimensional effect, Falaise offers an extremely realistic rendering of the typical irregularities of natural stone.

Falaise reinterpreta le ardesie in una chiave inedita, che va oltre la semplice riproduzione digitale. Caratterizzata da toni neutri, sia caldi che freddi, la pietra si sviluppa con passaggi cromatici tono su tono, più morbidi e delicati rispetto al materiale naturale a cui si ispira. Ricca di dettagli e dal sorprendente effetto tridimensionale, Falaise ripropone le tipiche irregolarità della pietra naturale in modo estremamente realistico.

Falaise donne une nouvelle interprétation des ardoises, qui va au-delà de la simple reproduction numérique. Caractérisée par des tons neutres aussi bien chauds que froids, c'est une pierre conçue avec des passages de gradations chromatiques ton sur ton plus tendres et plus délicats que la matière naturelle dont elle s'inspire. Riche en détails et avec un effet tridimensionnel saisissant, Falaise réplique de manière prodigieusement réaliste les irrégularités typiques de la pierre naturelle.

Falaise liefert eine neuartige Interpretation von Schiefergestein, die über die digitale Reproduktion hinausgeht. Von neutralen warmen und kühlen Nuancen gekennzeichnet, weist die Steinoptik Ton in Ton gehaltene Farbverläufe auf, die weicher und sanfter daherkommen als bei der natürlichen Vorlage. Die mit einem großen Detailreichtum und einer überraschenden Tiefenoptik ausgestattete Oberfläche von Falaise gibt die typischen kleinen Unvollkommenheiten und Makel von Naturstein in äußerst realistischer Weise wieder.

# SALENTO

Inspired by the stones used in the architecture of Italy's Apulia region, Salento, is a vibrant, realistic interpretation of the area's 'chianche' slabs. In shades from warm beiges and browns through to the more contemporary grey, these surfaces celebrate this Mediterranean region's warm, refined elegance and conserve its charm and atmosphere.

Inspirata alle pietre usate nelle architetture pugliesi, Salento è l'interpretazione vibrante e realistica delle caratteristiche chianche. Dai toni caldi beige e bruni fino al più contemporaneo grigio, queste superfici sono un omaggio all'eleganza calda e raffinata di quella regione mediterranea, di cui conservano charme e atmosfera.

Inspirée par les pierres utilisées dans l'architecture de la région italienne des Pouilles, Salento est l'interprétation vibrante et réaliste de la « chianca », pierre typique de ce territoire. Avec leurs tons chauds allant du beige et du brun au gris plus contemporain, ces surfaces rendent hommage à l'élégance chaleureuse et raffinée de la région méditerranéenne, dont elles gardent le charme et l'atmosphère.

Die Kollektion Salento bietet eine lebendige und naturgetreue Interpretation der für die Architektur Apuliens charakteristischen Steinplatten, den sogenannten „Chianche“. Mit ihrer von warmen Beige- und Brauntönen bis zum zeitgemäßen Grau reichenden Farbpalette sind diese Oberflächen eine Hommage an die warme, geschmackvolle Eleganz dieser mediterranen Region, deren Charme und Atmosphäre sie weitertragen.

# ANIMA

Successfully combining the soft, natural appeal of limestone with the versatile, industrial personality of concrete, Anima has an unusual aesthetic with a strong, original impact, with subtle variations and dappling highlighted by small pebbles.

Capace di far convivere la morbida naturalezza della pietra calcarea col carattere industriale e versatile del cemento, Anima propone un'estetica inedita dall'impatto forte e originale, in cui i morbidi movimenti e le nuvolature sono arricchiti da piccoli ciottoli.

Sachant combiner la douceur naturelle de la pierre calcaire avec le caractère industriel et polyvalent du béton, Anima propose une esthétique inédite, fortement impactante et originale, dans laquelle les mouvements doux et les effets nuagés sont enrichis par de petits galets.

Die weiche Natürlichkeit von Kalkstein in Verbindung mit dem vielseitigen industriellen Charakter von Beton - Anima bietet eine brandneue markante und originelle Optik mit weichen Linien und Wolkenmustern, bereichert durch feine Kieseinschlüsse.

# STORM

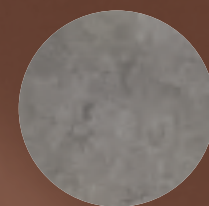

Inspired by the famous Pulpis stone, Storm reinterprets the natural material in different colours. With strong vein patterns contrasting with a soft background, the collection comes in four neutral shades with a lightly textured surface for even greater realism.

Ispirata alla celebre pietra Pulpis, Storm ne re-interpreta cromaticamente il materiale naturale. Caratterizzata da venature decise in contrasto con la morbidezza del fondo, la collezione si sviluppa in quattro tonalità neutre, mentre la superficie, leggermente strutturata, ne aumenta il realismo.

Storm réinterprète chromatiquement la célèbre pierre Pulpis dont elle s'inspire. Marquée par des veines impactantes contrastant avec la douceur du fond, cette collection se décline en quatre nuances neutres, tandis que la surface, légèrement texturée, renforce son réalisme.

Storm ist dem berühmten Pulpis nachempfunden und bietet eine farbliche Neuinterpretation des Natursteins. Charakteristisch für die Kollektion sind markante Äderungen, die einen Kontrast zum weich anmutenden Hintergrund bilden; die leicht strukturierte Oberfläche verstärkt den naturgetreuen Effekt. Die Farbpalette umfasst vier neutrale Farbtöne.

# MINERAL

Mineral is an aesthetic synthesis of two natural stones, combining the minimalist elegance of Lipica stone with the timeworn personality of slate. The resulting collection has a strong personality, reinforced by high-tech surface decoration which accurately reproduces the natural originals.

Mineral nasce dalla sintesi estetica di due pietre naturali, grazie all'unione tra l'eleganza minimalista della pietra Lipica e il carattere vissuto delle Ardesie. Il risultato è una collezione dalla forte personalità, esaltata da una lavorazione superficiale altamente tecnologica che permette di interpretare fedelmente i riferimenti naturali.

Mineral est née de la synthèse esthétique de deux pierres naturelles, la pierre Lipica et l'ardoise dont elle allie respectivement l'élégance minimaliste et l'effet vécu. Le résultat est une collection révélant une forte personnalité, enrichie par une finition hautement technologique visant à interpréter fidèlement ses références naturelles.

Mineral beruht auf der Verschmelzung von zwei Natursteinoptiken. Das Projekt verbindet gekonnt die minimalistische Eleganz des Lipica-Steins mit dem wohnlichen Charakter von Schiefer. Das Ergebnis ist eine Kollektion mit starker Ausstrahlung, die durch die High-Tech-Bearbeitung der Oberfläche zusätzlich betont wird und die natürlichen Vorbilder detailgetreu interpretiert.

Intro | Mission | Group | Technology

Dorica crystallises the universal aesthetic of travertine stone in a ceramic collection with a timeless beauty. With surface finishing that reproduces the little dips and flaws typical of the natural stone, Dorica achieves a three-dimensional realism fully expressed in the Antique 3D surface, an anthem to classical loveliness.

Con Dorica l'estetica universale del Travertino viene cristallizzata in una collezione ceramica dal fascino senza tempo. Grazie alle lavorazioni superficiali, in grado di riprodurre i piccoli avvallamenti e imperfezioni tipici della pietra naturale, Dorica acquista un realismo tridimensionale, che si sublima nella superficie Antique 3D, vero omaggio al fascino della classicità.

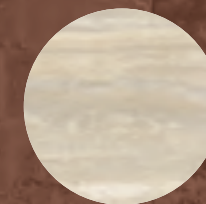

Avec Dorica, l'esthétique universelle du travertin est cristallisée dans une collection de céramiques au charme intemporel. Grâce à l'usinage de sa surface reproduisant les petits creux et les imperfections typiques de la pierre naturelle, Dorica acquiert un réalisme tridimensionnel, sublimé par la surface Antique 3D, véritable hommage au charme du classicisme.

In der zeitlosen Keramikkollektion Dorica zeigt sich die universelle Schönheit von Travertin. Durch die Oberflächenbearbeitungen, die für kleine Vertiefungen und Unebenheiten sorgen, wie sie typisch für den Naturstein sind, erreicht Dorica eine besonders plastische, realistische Optik und schafft mit der edlen Oberfläche Antique 3D eine faszinierende Hommage an die Klassik.

# EPOQUE 21

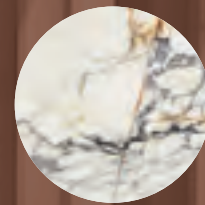

With Epoque 21, the interpretations of unusual, sophisticated varieties of marble merge to tell a story of extraordinary decorative value, written in vein patterns, contrasts and arabesque motifs. The materials' visual wealth is amplified by the surfaces: natural, with a soft, velvety 'feel', and Antique 3D, with a three-dimensional realism that transports us into the luxurious world of the Italian palazzo.

Le interpretazioni di marmi inediti e ricercati si fondono con Epoque 21 in una raccolta dallo straordinario valore decorativo, caratterizzata da venature, contrasti e arabeschi. La ricchezza visiva delle referenze proposte è amplificata dalle superfici: naturale, con una mano morbida e vellutata, e Antique 3D, dal realismo tridimensionale capace di trasportare nelle lussuose dimore nobiliari italiane.

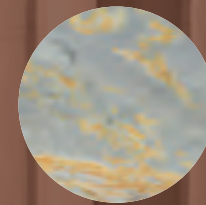

Les interprétations de marbres inédits et raffinés se fondent avec Epoque 21 en une collection d'une extraordinaire valeur décorative, caractérisée par des veines, des contrastes et des arabesques. La richesse visuelle des références proposées est amplifiée par les finitions : mate, au toucher doux et velouté, et Antique 3D, au réalisme tridimensionnel capable de mener par la pensée dans de luxueuses demeures aristocratiques italiennes.

Raffinierte Neuinterpretationen von Marmor stehen im Zentrum von Epoque 21, einer Kollektion mit hohem dekorativem Wert, die sich durch raffinierte Aderungen, Kontraste und Arabesken auszeichnet. Die opulente Optik der angebotenen Versionen wird durch verschiedene Oberflächenausführungen zusätzlich bereichert – ein natürliches Finish mit samtig weicher Haptik und Antique 3D, ein besonders plastisch wirkendes Finish, das in die Welt der luxuriösen Adelspalais Italiens entführt.

This article comes in several different versions with unconnected patterns that are mixed randomly at the time of packaging. There is therefore no guarantee that all patterns will be present in any individual box. Any variations in graphic designs or textures between adjacent tiles are a natural consequence of the manufacturing process and do not constitute a product defect.

Articolo composto da pattern grafici diversi che non prevedono agganci tra loro e miscelati in modo casuale in fase di inscatolamento. Non si garantisce pertanto la presenza costante di tutti i soggetti all'interno delle confezioni. # CONCREA PLAIN

Concrea Plain is a contemporary, minimalist reinterpretation of industrial surfaces, with an unusual, sophisticated blend of the resin and concrete looks. With a universal style and a delicate tactile texture, the collection is enhanced by its soft surfaces and its potentials are amplified by its modular sizes.

Concrea Plain rappresenta una rilettura in chiave contemporanea e minimalista delle superfici industriali, grazie a una sintesi inedita e ricercata tra le estetiche di resina e cemento. La collezione, dallo stile universale e dalla matericità morbida, è esaltata dalle superfici soft e amplificata dalla modularità dei formati.

Concrea Plain est une réinterprétation contemporaine et minimaliste des surfaces industrielles, qui exploite une synthèse inédite et raffinée des qualités esthétiques de la résine et du béton. Avec son style universel et sa matérialité douce, cette collection est valorisée par la douceur de ses finitions et amplifiée par la modularité de ses formats.

Concrea Plain ist eine moderne, minimalistische Neuinterpretation von Oberflächen im Industriestil, die aus einer raffinierten Mischung aus Harz- und Betonoptik hervorgeht. Eine dank modularer Formate besonders vielseitige Kollektion mit universellem Stil und sanfter Materialität, deren Optik durch weiche Oberflächen zusätzlich betont wird.

# CIMENT

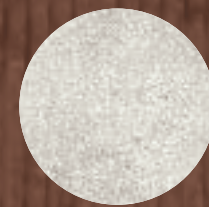

Ciment celebrates the beauty of Brutalist architecture, conveying its pure tactile power and expressive strength. The aesthetic evokes the typical rich textures of construction concretes, expressed in a colour palette complete with neutral shades able to highlight any space.

Ciment è un omaggio al fascino dell'architettura brutalista, di cui interpreta la matericità pura e la forza espressiva. L'estetica riprende la matericità tipica dei calcestruzzi da costruzione, declinandola in una palette cromatica completa di toni neutri capace di enfatizzare ogni spazio.

Ciment est un hommage au charme de l'architecture brutaliste, dont elle interprète la matérialité pure et la puissance expressive. Son esthétique reprend la typicité des bétons de construction, en la déclinant dans une palette de couleurs aux tons neutres sachant valoriser n'importe quel espace.

Ciment ist eine Hommage an den Brutalismus-Stil und interpretiert dessen reine, ausdrucksstarke Materialität. Die Optik greift die für Baubeton typische Stöflichkeit auf und wird in einer umfassenden Farbpalette mit neutralen Farben angeboten, die jedes Raumkonzept optimal in Szene setzen.

# PONDICHÉRY

The Pondichéry collection is a conceptual aesthetic blend of concrete and stone. The result is a rich yet uniform concrete-effect surface, with inclusions, marks and patterning discreetly blending into the neutral backgrounds.

La collezione Pondichéry rappresenta un'ideale fusione estetica tra calcestruzzo e pietra. Il risultato è una superficie effetto cemento al tempo stesso ricca e uniforme in cui inclusioni, segni, movimenti grafici di fondono in modo discreto al fondo neutri.

La collection Pondichéry représente la fusion esthétique idéale entre béton et pierre. Il en résulte une surface effet béton à la fois riche et uniforme où les inclusions, les signes et les graphismes se mêlent avec discrétion aux fonds neutres.

Die Kollektion Pondichéry stellt eine optimale Mischung aus Baubeton- und Natursteinoptik dar. Entstanden ist eine Betonoptik-Oberfläche, die vielförmig und homogen zugleich ist; Einschlüsse, Details und Muster sind unaufdringlich mit den neutralen Grundplatten verschmolzen.

# CANVAS

Canvas is a full-blooded interpretation of the aesthetics of construction materials like concrete and cement. The surface retains all the marks and graphic details of the inspiration materials, while the colour assortment breaks through the boundaries of grey to include warm shades and browns.

Canvas interpreta le estetiche dei materiali da costruzione, come calcestruzzo e cemento, in modo pieno e senza compromessi. La superficie mantiene tutti i segni e i movimenti grafici dei materiali di ispirazione mentre la palette cromatica supera i confini del grigio integrando anche tonalità calde e brune.

Canvas réplique pleinement et sans compromis les qualités esthétiques des matériaux de construction tels que le béton et le ciment. La surface garde tous les signes et les mouvements graphiques des matériaux dont elle s'inspire. La palette chromatique, quant à elle, dépasse les limites du gris en conviant aussi des nuances chaudes et brunes.

Canvas interpretiert kompromisslos die Optik von Baumaterialien wie Schalungszement und Beton. Die Oberflächen zeigen alle Zeichnungen und Strukturen der Vorbildmaterialien, während die Farbpalette über Grau hinausgeht und auch warme braune Farbnuancen umfasst.

# LUCE

Luce has been created by interpreting and merging two different looks: resins and metals. The surface, with the softness and neutrality of resin, responds to reflected light just as a metal would, giving an unusual, original effect.

Luce nasce dall'elaborazione e fusione di due estetiche diverse: le resine e i metalli. La superficie, neutra e morbida, tipica della resina, risponde alla riflessione della luce proprio come farebbe un metallo, per un effetto inedito e originale.

Luce est le fruit de l'élaboration et de la fusion de deux esthétiques différentes : les résines et les métaux. La surface neutre et douce, typique de la résine, réagit à la réflexion de la lumière exactement comme le ferait un métal, pour un effet inédit et original.

Luce verdankt sich der Weiterentwicklung und Verschmelzung von zwei unterschiedlichen Optiken: Harze und Metalle. Vom Harz übernimmt sie die typisch weiche und neutrale Oberfläche, einfallendes Licht reflektiert sie wie Metall und schafft so einen absolut neuen, originellen Effekt.

# HERMIONE

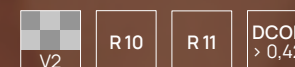

Hermione is Desvres Ariana's homage to oak planks, interpreted with naturalness and precision. The result is a highly original collection in which the knots, stippling and variegation typical of the inspiration material generate a versatile yet extremely characterful design.

Hermione è l'omaggio di Desvres Ariana allo stile delle tavole in legno di rovere, interpretate con fedeltà e naturalezza. Il risultato è una collezione dalla forte originalità in cui nodi, striature e variegature tipiche del materiale di ispirazione danno vita a un design al tempo stesso versatile e fortemente personale.

Hermione est l'hommage de Desvres Ariana au style des planches de chêne rouvre, interprétées avec fidélité et naturel. Le résultat est une collection très originale dans laquelle les noeuds, les stries et les variations typiques de la matière dont elle s'inspire créent un design polyvalent mais néanmoins au cachet unique.

Mit Hermione interpretiert Desvres Ariana natur- und detailgetreu den Look von Eichenholzplatten. Das Ergebnis ist eine sehr effektvolle Kollektion, in der Astknoten, Streifungen und Variantenreichtum wie beim natürlichen Vorbild für ein sehr individuelles und vielschichtiges Erscheinungsbild sorgen.

# LEGEND

Legend is a collection inspired by reclaimed wooden planks. Its style, with a strong, forceful personality, is very decorative and ideal for creating interiors with warm, authentic moods. Its appearance retains all the details and peculiarities of the inspiration material, enhanced by surface treatments that provide an accurate three-dimensional reproduction of hyper-realistic distressed, time-worn surfaces.

Legend è una collezione che si ispira alle tavole in legno di recupero. Lo stile, dalla personalità forte e decisa, ha un alto valore decorativo e permette di donare a spazi a ambienti atmosfere calde e autentiche. Nell'aspetto mantiene tutti i dettagli e le particolarità del materiale di ispirazione, esaltati dai trattamenti superficiali in grado di riprodurre con fedele tridimensionalità l'iperrealismo di superfici vissute e disegnate dal tempo.

Legend est une collection inspirée de planches de bois de récupération. Son style, à la personnalité affirmée et pleine de caractère, a un fort impact décoratif et permet de donner aux espaces une atmosphère chaleureuse et authentique. Son apparence garde tous les détails et les particularités du matériau d'inspiration, valorisés par des traitements de surface reproduisant avec une fidèle qualité tridimensionnelle l'hyper-réalisme de lieux vécus où le temps a laissé les traces de son passage.

Altholztafeln dienten als Inspiration für die Kollektion Legend. Die markante Optik mit prägnantem Stil ist ausgesprochen dekorativ und verleiht den Räumen eine warme und natürliche Atmosphäre. Sie zeichnet sich durch detailgetreue Wiedergabe des als Vorbild dienenden Materials aus, betont durch Oberflächenbehandlungen, mit denen die gelebten und von der Zeit gezeichneten Oberflächen besonders realistisch reproduziert werden können.

# FLORALIA

Floralia brings all the visual decorative and chromatic effects of wallpaper into living-spaces, reinterpreted on ceramic surfaces that combine aesthetic value, technical performances and convenience in use. The vivid, contemporary colours are paired with graphic decorations in which the innovative 3D Tech technologies create three-dimensional details that give the surfaces greater depth and character.

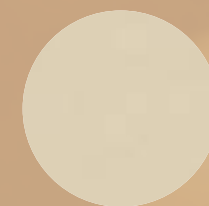

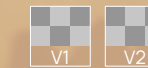

Floralia porta negli spazi del vivere tutto il decorativismo visivo e cromatico delle carte da parati rielaborate su superfici ceramiche, in grado di unire estetica, performance tecniche e praticità di utilizzo. La proposta di colori vividi e contemporanei si abbina ai decori grafici, in cui le innovative tecnologie 3D tech permettono dettagli tridimensionali capaci di dare ulteriore profondità e importanza alle superfici.

Floralia apporte aux espaces de vie tout le décor visuel et chromatique de papiers peints qu'elle réélabore sur la céramique en alliant esthétique, performances techniques et praticité d'utilisation. Les couleurs vives et contemporaines sont associées à des décors graphiques, où la technologie 3D Tech innovante permet d'obtenir des détails tridimensionnels qui apportent aux surfaces une profondeur et une importance accrues.

Floralia bringt die ganze visuelle und farbliche Gestaltungskraft von Tapeten auf keramische Oberflächen und vereint Ästhetik, ausgezeichnete technische Leistungen und Zweckmäßigkeit. Die lebhaft, moderne Farbpalette ist auf die grafischen Dekore abgestimmt. Innovative Technologien wie 3D Tech lassen plastische Details entstehen, die den Oberflächen zusätzliche Tiefe und Ausdruckskraft verleihen.

**Packaging I** NEW PACKAGING SYSTEMS

Innovation in slab's range is also reflected in the project's logistics. ABK Group has revolutionised the packaging of ceramic slabs and is the only company to have expanded the stacking rack pallet system to the 75x284x147,5 (slabs 120x280), 75x168x109 (slabs 80x160) e 75x26x200 (slabs 26x200) cm size.

This has the following advantages:

- stacking optimises the use of space in warehouses.\*
- the 75 cm depth enables full use of container load space (3 pallets fit perfectly side by side). The vertical positioning of the product better protects the slabs during shipping.
- it facilitates work on site, since the slabs are already positioned vertically, making the material easy to inspect and remove for installation.
- the overall size of the rack pallet provides greater space for manoeuvring in the installation area in comparison with conventional crates, and also makes it easier to lift the slabs mechanically (with a crane or lift).
- the rack pallet system employs strapping which allows the user to remove a single package at a time without affecting the stability of the other packages on the pallet, thus minimising the risk of breakage. The slabs must be released from the packaging by reversing the packaging sequence, i.e. starting with the last package to have been strapped on.

**Imballi I** NUOVI SISTEMI DI IMBALLO

L'innovazione del progetto lastre si esprime anche attraverso la parte logistica del progetto. ABK Group rivoluziona il sistema di imballaggio delle lastre ed è a oggi l'unica azienda che ha portato il sistema a cavalletto impilabile alla dimensione di cm 75x284x147,5 (lastre 120x280), 75x168x109 (lastre 80x160) e 75x26x200 (lastre 26x200).

Questi i principali vantaggi offerti:

- essendo impilabile permette di ottimizzare gli spazi all'interno dei magazzini.\*
- la profondità di 75 cm consente di sfruttare a pieno il volume di carico dei container (3 pallets ne occupano perfettamente la larghezza).
- il posizionamento verticale del prodotto garantisce una maggiore protezione delle lastre durante le fasi di trasporto.
- facilita le operazioni sul cantiere in quanto le lastre si trovano già posizionate in verticale, il materiale è facilmente ispezionabile e removibile per l'installazione.
- le dimensioni complessive del cavalletto consentono maggiori spazi di manovra all'interno dei locali di posa rispetto alle casse tradizionali e agevolano il sollevamento del materiale mediante mezzi meccanici (gru-montacarichi).
- è caratterizzato da un sistema di regettatura che consente di liberare anche 1 solo collo alla volta, senza compromettere la stabilità del materiale che rimane sul pallet, evitando così il rischio di rotture. Le lastre dovranno essere liberate rispettando la sequenza opposta rispetto a quella con cui sono state confezionate, quindi iniziando dall'ultimo collo regettato.

**Emballage I** NOUVEAUX SYSTEMES D'EMBALLAGE

L'innovation dans la gamme de dalles se reflète également dans la logistique du projet. ABK Group a révolutionné le conditionnement des dalles céramiques et est la seule entreprise à avoir élargi le système de palettes à racks empilables aux dimensions 75x284x147,5 (dalles 120x280), 75x168x109 (dalles 80x160) et 75x26x200 (dalles 26x200).

Cela présente les avantages suivants :

- l'empilage optimise l'utilisation de l'espace dans les entrepôts
- la profondeur de 75 cm permet d'utiliser pleinement l'espace de chargement des conteneurs (3 palettes s'emboîtent parfaitement les unes à côté des autres) ;
- le positionnement vertical du produit protège mieux les dalles pendant le transport ;
- il facilite le travail sur le chantier, puisque les dalles sont déjà positionnées verticalement, ce qui permet d'économiser de l'argent et de l'argent. Le positionnement vertical du produit protège mieux les dalles pendant le transport.
- il facilite le travail sur le chantier, puisque les dalles sont déjà positionnées verticalement, ce qui rend le matériau facile à inspecter et à retirer pour l'installation.
- la taille globale de la palette rack offre un plus grand espace de manœuvre dans la zone d'installation par rapport aux caisses conventionnelles, et facilite également le levage mécanique des dalles (à l'aide d'une grue ou d'un élévateur).
- le système de palettes rack utilise un cerclage qui permet à l'utilisateur de retirer un seul paquet à la fois sans affecter la stabilité des autres paquets sur la palette, minimisant ainsi le risque de rupture. Les dalles doivent être libérées de l'emballage en inversant la séquence d'emballage, c'est-à-dire en commençant par le dernier paquet à avoir été cerclé.

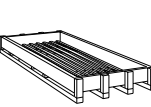

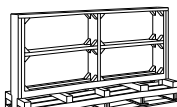

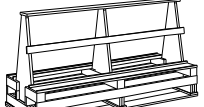

**Verpackung I** NEUE VERPACKUNGSSYSTEMESYSTEMS

Die Innovation im Bereich der Platten spiegelt sich auch in der Logistik des Projekts wider. Die ABK-Gruppe hat die Verpackung von Keramikplatten revolutioniert und ist das einzige Unternehmen, das das Stapelregal-Palettensystem auf die Maße 75x284x147,5 (Platten 120x280), 75x168x109 (Platten 80x160) und 75x26x200 (Platten 26x200)

Dies sind die wichtigsten Vorteile:

- Durch die Stapelbarkeit wird der Stauraum optimiert.
- Die Tiefe von 75 cm ermöglicht die volle Ausnutzung des Ladevolumens des Containers (3 Paletten füllen seine Breite perfekt aus).
- die vertikale Positionierung des Produkts gewährleistet einen besseren Schutz der Platten während des Transports.
- erleichtert die Arbeit auf der Baustelle, da die Platten bereits vertikal positioniert sind, das Material leicht zu inspizieren und für den Einbau zu entfernen ist.
- Die Gesamtmaße des Bocks bieten mehr Spielraum in den Aufstellräumen als herkömmliche Kisten und erleichtern das Heben des Materials mit mechanischen Mitteln (Kranhaken).
- zeichnet sich durch ein Umreifungssystem aus, das die Freigabe von jeweils nur einem Packstück ermöglicht, ohne die Stabilität des auf der Palette verbleibenden Materials zu beeinträchtigen, wodurch das Risiko eines Bruchs vermieden wird. Die Bögen müssen in der umgekehrten Reihenfolge befreit werden, in der sie gepackt wurden, also beginnend mit dem letzten unreiften Packstück.

The difference in shades of colour cannot be declared as a material defect. Eventual complaints regarding the quality or the type of material must be submitted within 8 days from the date of delivery. The purchaser agrees to make available the disputed lots in order that the declared defects may be controlled. In any case, the installation exonerates the manufacturer from any liability. In any case, the Client is obliged to pay the entire sum of the supply if the order is cancelled. If the acceptance of the cancellation is feasible, the Client will be peremptorily obliged to reimburse all the expenses sustained by the producer up to that moment.
9. PRICES The prices on our price list are not binding. We reserve the right to modify prices before accepting an order.
10. PAYMENT Payments must be made only in our main office. Le differenze di tonalità non potranno essere denunciate come vizio del materiale. Eventuali reclami in merito alla qualità, tipo del materiale, dovranno pervenirci entro 8 giorni dalla data di consegna. Il compratore s'impegna a tenere a disposizione le partite contestate così da consentire il controllo dei difetti denunciati, in ogni caso la posa in opera ci esonera da qualsiasi responsabilità. 5. DIMENSIONI E TONALITÀ I nostri materiali sono da classificarsi fra i prodotti cotti ad alta temperatura e come tali possono presentare differenze tra le dimensioni dichiarate e quelle effettivamente consegnate. L'Acheteur s'engage à mettre à disposition les parties contestées de manière à permettre le contrôle des défauts déclarés, sachant que la pose nous libère quoiqu'il en soit de toute responsabilité. Les éventuels vices ou défauts de qualité de la marchandise, si déclarés en vertu des termes de loi et confirmés ou reconnus, ne donnent droit qu'à la substitution des matériaux défectueux, à condition que les marchandises contestées ne soient rendues préalablement et, sur autorisation écrite de l'opération de restitution, en renonçant et en excluant ainsi de manière formelle la résolution du contrat tout comme les éventuels dommages et intérêts.
5. **DIMENSIONS ET NUANCES** Nos matériels se classent parmi les produits cuits à haute températures et peuvent présenter en tant que tels des différences entre les dimensions déclarées et celles effectivement livrées.
